The Facility Health Services Director (FHSD), is the medical authority at the Correctional Facility functioning as the supervisor to all health unit staff and is responsible for all aspects of inmate health care services including ambulatory care, infirmary and pharmacy services as well as clinics and referrals. In the absence of an appointed Facility Health Services Director, the Superintendent may appoint a physician, the Nurse Administrator, or an RN II (in camps).

The Facility Health Services Director reports to the Superintendent or Senior Executive delegate at the Correctional Facility. The FHSD is present on-site to meet responsibilities consistent with the IPP Agreement, and is available at other times as necessary to ensure the effective operation of the unit.

The Facility Health Services Director ensures high quality inmate health care by developing, implementing, maintaining and directing health care programs in conjunction with the policies and standards set forth by the Deputy Commissioner/Chief Medical Officer for the New York State Department of Correctional Services (NYS DOCS) Health Services Division.

E.C.F. Law Library
Privileged Legal Materials

At each Correctional Facility the Facility Health Services Director maintains a standard operating procedure manual to reflect NYS DOCS policies, ensuring that the manual is maintained, updated and readily available to health care staff.

The Facility Health Services Director roles include maintaining professional relationships within the facility and outside community. At the facility level this task involves establishing effective communication between the Facility Health Unit and ancillary areas throughout the facility. This communication is maintained through the FHSD attendance at regularly scheduled Executive Team meetings. When concerns cannot be addressed at this level the Assistant Commissioner for Clinical Affairs is the arbiter.

Outside the facility the Facility Health Services Director communicates with consultants treating their inmate population. The Facility Health Services Director also networks with other professional colleagues to encourage possible assistance from these providers. He reviews outside consultations to ensure adequate service is provided according to patient needs vs. patient requests.

The Facility Health Services Director is the supervisor to the entire health unit staff including the Nurse Administrator, Pharmacist and Dental Director. The Facility Health Services Director directs staff in complying with established policy and encourages staff growth through the promotion of inservice education.

E.C.F. Law Library
Privileged Legal Materials

In the Facility Health Services Director role as the health unit manager, he/she is involved in all aspects of operations. The Facility Health Services Director is involved with budget, clinic operations, mortality and morbidity review and emphasizes facility compliance to the Quality Management Program. He/she also arranges on-call physician coverage for the facility, establishes and reviews emergency health care plans and makes certain the physical environment of the health unit is both clean and safe.

E.C.F. Law Library
Privileged Legal Materials

The Facility Health Services Director is required to maintain current licensure and registration within his/her respective discipline. He/she is encouraged to seek and participate in their professional societies and organizations and upgrade their interests and skills to ensure high quality care to our inmates.

The Statewide Directors of Nursing, Dentistry and Pharmacy work collaboratively with the Facility Health Staff. The Facility Nurse Administrator, Pharmacist and Dental Directors are directly accountable to their Statewide Director for quality and professional performance. The Facility Health Services Director is accountable for administrative and personnel issues, including the performance appraisal of the facilities Nurse Administrator, Pharmacist and Dental Director.
